Take precautions and report suspicious behavior.

One of the reasons I enjoy my job as much as I do is because I have the opportunity to interact with our community. I welcome your suggestions, so that I may serve you better. CAMDEN COUNTY COLLEGE PUBLIC SAFETY DEPARTMENT Why a Campus Security Report?

Campus Safety and Security Reporting requires Camden County College to:

- Publish an annual report every year by October 1 that contains three years of campus crime statistics and certain campus security policy statements;
- Disclose crime statistics for the campus, public areas immediately adjacent to or running through each campus, and certain non-campus facilities and remote classrooms. The statistics must be gathered from campus public safety, local law enforcement, and other college officials who have "significant responsibility for student and campus activities;"
- Provide "timely warning" notices of those crimes that have occurred and pose an ongoing "threat to students and employees;" and
- Disclose in a public crime log "any crime that occurred on campus, or within the patrol jurisdiction of the campus Public Safety Department and that which is reported to the campus Public Safety Department."

(There are additional requirements not listed above.)

Colleges and universities must publish and distribute their *Jeanne Clery Disclosure of Campus Security Policy and Campus Statistics Act* Annual Crime Report by October 1, each year.

Institutions of higher education are mandated to report certain crimes that occur on or around college campuses for the previous three years. The report included in the link below details all reported incidents from 2018-2020. Incidents documented in 2021 will be included in next year's report. https://www.camdencc.edu/student_life/safety-on-campus/campus-security-report/

Notifications of incidents involving safety concerns are communicated to students using the College's emergency messaging system, Cougar Call, and by posting Alerts on Campus as well as the home page of CCC's website.

In addition to this publication, individuals may go to the website listed below to view the latest crime statistics and safety tips provided by the Public Safety Department at Camden County College. https://www.camdencc.edu/student_life/safety-on-campus/campus-security-report/

Details as to how to report suspicious activities, incidents or concerns can also be found by visiting the site. Safety at Camden County College is everyone's concern.

Hard copies of this booklet can be obtained by visiting the Public Safety Department or by calling (856) 227-7200 ext. 4288 or Direct at (856) 374-5089.

CAMDEN COUNTY COLLEGE

PUBLIC SAFETY DEPARTMENT

Introduction

It is the mission of Camden County College's Department of Public Safety to support a safe environment where quality education and freedom of thought and expression can be achieved, and where social, cultural, and academic values may prosper and grow.

The staffing of the Department consists of the Executive Director of Public Safety Education & Training/Police Academy/RETC, the Associate Director of Public Safety, Administrative Assistant, and Public Safety Officers with various backgrounds and years of experience.

The Department serves four campuses: Blackwood, Camden, Rohrer and RETC. The Public Safety Department provides in-house safety inspections in an effort to keep the College as safe as possible. During calendar year 2021, the College received several safety inspections from the county, state and/or federal agencies without major safety discrepancies and responded to numerous calls for service.

Camden County College encourages the entire College community, faculty, staff and students to report all incidents witnessed, regardless of the seriousness, to the Public Safety Department.

Most of the Camden County College campuses are staffed by Public Safety Officers seven days a week; 24 hours a day. Additionally, emergency telephones and emergency call-boxes have been placed strategically throughout each campus, along

with Emergency Information quick reference posters.

The Camden County College Public Safety Department has full authority to enforce all College policies and directives. Violations of local, county and state laws, procedures and codes are reported directly to the jurisdictional local enforcement authority where each College campus is located. All incidents and emergencies reported to the Public Safety Department are entered in the department's reporting system and immediately investigated by a Public Safety Officer. Minor incidents are logged and filed as incident reports for reference. All violations of the Student Code of Conduct are submitted to the Associate Dean for Student Services for review. All violations of New Jersey Statutes are sent to the proper law enforcement agencies. The College has an excellent working relationship with local, county and state law enforcement agencies within our reporting jurisdiction.

Camden County College currently does not have resident halls/buildings. At present, there are no off-campus College clubs or organizations.

The Public Safety Department has access to all areas, buildings, classrooms, custodial closets, offices, etc. The parking lots, walkways and outside patios, some of which have emergency phones, are well illuminated, patrolled and monitored by the Public Safety Department.

CAMDEN COUNTY COLLEGE PUBLIC SAFETY DEPARTMENT Clery Compliance Statement for Emergency Response and Evacuation Procedures

Camden County College is committed to providing a safe learning and working environment for its students and employees. Safety; however, is everyone's responsibility.

Quick and reliable communication is critical during a campus emergency. At Camden County College, we rely on a number of ways to communicate to our students and employees, including email, voicemail, Internet and the media (i.e., radio, television and newspapers).

Additionally, in the event of a campus-wide emergency, the College will utilize the mass communication emergency alert system, referred to as the "Cougar Call Messaging System." The Cougar Call Messaging System serves as the primary means to notify the campus community of an emergency or school closing.

Upon confirmation of an emergency or dangerous situation, the Cougar Call Messaging System may be used to evacuate a building, an entire campus, to cancel all school related activities, or to instruct the College community to shelter-in-place. Information is sent via automated telephone calls, text messages, and emails.

To subscribe to the Cougar Call Messaging System, please [CLICK HERE](#).

If you have any questions regarding the Cougar Call Messaging System, please feel free to contact the Department of Public Safety at 856-374-5089.

Building evacuations **MUST** occur when:

- a fire alarm sounds;
- when deemed appropriate and necessary by the Public Safety Department officer on the scene; or
- when notified via the "Cougar Call Emergency Notification System."

When an evacuation is deemed necessary, **everyone MUST evacuate**. Once outside, evacuees should proceed to the nearest **emergency evacuation point of assembly area**, which is centrally located throughout each campus, or move to a clear area **at least 300 feet from the building**.

Please keep streets, circles, fire lanes, fire hydrants and walkways clear for emergency responders and their vehicles.

When a building evacuation alarm sounds, please leave by the closest marked exit and alert others to do the same. Make sure all

doors, closets, and windows are closed; this may limit the damage from fire and smoke. Take all personal items with you to include: keys, cell phones, book bags and medications as you may not be permitted to re-enter the building.

When ordered to evacuate or when alarms are activated, **always leave immediately**. Exit quickly and calmly using the nearest emergency escape routes and marked exits and proceed to the point of assembly areas. **Do not use elevators**. Emergency assembly areas and points include parking lots and other strategic locations at least 500 feet from the buildings.

Assist persons requiring evacuation assistance to get to designated areas. Be alert for trapped, injured, or other persons needing assistance, and **alert Public Safety** if help is needed.

For shelter-in-place instructions, please review the Emergency Procedures Quick Reference guide located in each classroom.

CAMDEN COUNTY COLLEGE PUBLIC SAFETY DEPARTMENT

FIRE DRILLS

In the interest of safety and preparedness, the Department of Public Safety conducts periodic fire drill exercises. These fire drills are done in conjunction with the Camden County Fire Marshal and local fire departments. When a fire alarm is activated, every person must immediately vacate the building. There are **no** exceptions to this mandate.

We encourage every member of the College community to familiarize themselves with the "Emergency Procedures" bulletin posted inside of every campus classroom and common area. When evacuating, please be sure to take all belongings with you. Once out of the building, maintain a safe distance of at least 500 feet from the structure. Do not re-enter the building until instructed to do so by Public Safety or fire department personnel. Even though you may hear the audible fire alarm silenced, you must remain outside until you are instructed by Public Safety personnel that it is safe to reenter the building. If you smell smoke or see fire on campus and a fire alarm is not activated, leave the area, activate the nearest fire pull station and contact public safety as soon as possible. For those individuals in a multi-story building who have mobility issues, please go to the nearest elevator and await assistance from Public Safety personnel.

Policy and Guidelines on Alcohol and Other Drugs

WHAT EVERY STUDENT AND EMPLOYEE MUST KNOW

It is the objective of Camden County College to provide a safe, drug-free environment for all members of the college community and to fully comply with local, state and federal statutes. Moreover, the college is required to comply with the Drug-Free Workplace Act of 1988, 41 U.S.C., Section 701, et seq., and the Drug-Free School and Committees Act Amendment of 1989, Public Law 101-226 and 34 CFR Part 86, as well as other relevant substance abuse laws. Therefore, Camden County College has adopted the following policies regarding the use of drugs and alcohol by students and employees.

These guidelines were developed to promote a healthy, safe and drug-free academic and work environment, provide assistance to employees and students who identify themselves as suffering from alcohol and/or other drug dependency and/or abuse, and to safeguard the college, its interests and its assets.

SUBSTANCE ABUSE

Camden County College is an educational institution committed to maintaining an environment which allows students to enjoy the full benefits of their learning experience and to understand the negative consequences of the illicit use of alcohol and drugs on their lives. In accordance with the policy approved by the Board of Trustees of Camden County College, and in accordance with Public Law 101-226, the College declares that it will make every effort to provide its students with an environment that is free of the problems

associated with the unauthorized use and abuse of alcohol and illegal drugs. The possession and general use of alcoholic beverages on campus is prohibited. The use, possession, sale or being under the influence of illegal narcotics, chemicals, psychedelic drugs or other dangerous substances is illegal and forbidden on College property. The College is committed to promoting the wellness and positive self-development of its students, faculty and staff. Therefore, illegal substances are prohibited on College property.

OBSERVATION OF USE OF DRUGS OR ALCOHOL

It is the responsibility of students and employees to familiarize themselves with and adhere to all College rules and regulations related to alcohol and other drugs including adherence to all local, state and federal laws. Any employee who observes a student or employee violating these laws, rules, or regulations or demonstrating impaired behavior is responsible to immediately report the behavior to his/her immediate supervisor who will in turn report the observation to the appropriate college personnel. If a student or employee demonstrates impaired behavior and there is reasonable suspicion that he/she may be under the influence of a controlled substance, the Public Safety Department must be notified.

Policy and Guidelines on Alcohol and Other Drugs

HEALTH RISKS ASSOCIATED WITH ALCOHOL AND OTHER DRUG USE

Numerous health risks have been identified with substance abuse (use of illicit drugs and excessive use of alcohol). Abusers can lose resistance to disease, develop heart problems, contract infections, or become malnourished, physically exhausted, and even die.

Reality is often distorted, reactions may be slower, and the risk of accidents can increase. Extended substance abuse can cause coma, respiratory arrest, and convulsions. Injected drugs increase the risk for infectious diseases such as hepatitis and AIDS. Body systems are affected. The liver, lungs, and heart are damaged.

For women, there is an increase in birth defects associated with use during pregnancy. The Student Services office located in the College Welcome Center (CWC) has more in-depth information on the inherent health risks related to substance abuse.

Tobacco/Nicotine

Brief Description:

Through the use of tobacco, nicotine is one of the most heavily used addictive drugs and the leading preventable cause of disease, disability, and death in the U.S. Cigarette smoking accounts for 90% of lung cancer cases in the U.S., and about 38,000 deaths per year can be attributed to secondhand smoke. Cigarettes and chew tobacco are illegal substances in most U.S. states for those under 18; a handful of states have raised the age to 19.

Effects:

Nicotine is highly addictive. The tar in cigarettes increases a smoker's risk of lung cancer, emphysema, and bronchial disorders. The carbon monoxide in smoke increases the chance of cardiovascular diseases. Pregnant smokers have a higher risk of miscarriage or low birthweight babies. Secondhand smoke causes lung cancer in adults and greatly increases the risk of respiratory illnesses in children.

The existence of such a relationship will be determined based on the Complainant's statement, and with consideration of the length of the relationship, type of relationship, and frequency of interaction between the persons in the relationship. Dating Violence includes, but is not limited to, sexual or physical abuse or the threat of such abuse.

Dating Violence does not include conduct that constitutes Domestic Violence.

DISCRIMINATION

The treatment of a member of Camden County College less favorably because that person is a member of or associates with a member of a protected class. The College prohibits discrimination on the basis of race, color, religion, sex (including pregnancy), gender identity, sexual orientation, reproductive health decision, national origin, age (over 40), disability (mental or physical), genetic information, marital status, family responsibilities, victim of domestic violence, sexual offense, or stalking, or veteran status, or status as a volunteer emergency responder.

CAMDEN COUNTY COLLEGE

PUBLIC SAFETY DEPARTMENT

Anti-Harassment, Intimidation and Bullying

HOSTILE ENVIRONMENT

Results from unwelcome conduct that is sufficiently severe, pervasive, or persistent that it interferes with or limits the ability of a member of the College community to participate in, or receive benefits, services, or opportunities from the College's programs or activities.

INCAPACITATED

A state in which an individual cannot make rational, reasonable decisions because the individual lacks the capacity to give knowing Consent (e.g., to understand the "who, what, when, where, why, or how") of his or her sexual interaction. Examples include, but are not limited to, being: unconscious; asleep; voluntarily or involuntarily intoxicated; or use of any drug, intoxicant, or controlled substance. An individual who is incapacitated cannot give Consent.

NON-CONSENSUAL SEXUAL CONTACT

Responsible Employees do not include Confidential Resource. Responsible Employees include academic administrators, advisors, supervisors, department heads and chairs, deans, student affairs staff, faculty, human-resources personnel, campus-security officers, and athletic coaches. Responsible Employees must promptly report all known relevant information to a Title IX Coordinator, including the name of the Complainant, Respondent, and any witnesses.

CAMDEN COUNTY COLLEGE

PUBLIC SAFETY DEPARTMENT

Access to Campus Facilities

RETALIATION

Intimidating, threatening, coercing, or in any way discriminating against an individual because the individual filed a Complaint or who participates in the investigation or resolution of a Complaint in any way, or opposes in a reasonable manner an act or policy believed to constitute sex discrimination. For example, Retaliation occurs where a professor gives a student a lower grade because the student appeared as a witness in a proceeding under this Policy, or where a supervisor denies an employee's request for time off because the employee claimed that she was sexually harassed by the supervisor.

SEXUAL ASSAULT

Non-Consensual Sexual Contact, Non-Consensual Sexual Intercourse, and all forms of Sexual Violence that occurs without Consent. Resistance, or the absence thereof, is irrelevant to the determination of whether Sexual Assault has occurred.

SEXUAL EXPLOITATION

Occurs when an individual takes non-consensual or abusive sexual advantage of another for that individual's own advantage or benefit, or to benefit or advantage anyone other than the individual being exploited, and that behavior does not otherwise constitute Sexual Assault.

Examples of Sexual Exploitation include but are not limited to:

- Engaging in voyeurism;
- Exposing one's genitals or inducing another to expose his or her genitals;

- Knowingly transmitting a sexually transmitted infection to another;
- Taking, sharing, or publishing a photograph, video recording, or audio recording of sexual activity without the consent of all persons involved in the activity;
- Going beyond the boundaries of consent (for example, allowing another person to hide in a closet to watch you engage in consensual sex);
- Prostituting another; and
- Possession, use, and/or distribution of alcohol or other drug (e.g., Rohypnol, Ketamine, GHB, Burundanga, etc.) for the purpose of engaging in or facilitating Sexual Misconduct.

SEXUAL HARRASSMENT

Unwelcome conduct of a sexual nature, such as unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature. Harassing conduct may take many forms, including verbal acts and name-calling, as well as non-verbal behavior, such as graphic and written statements, or conduct that is physically threatening, harmful, or humiliating. The more severe the conduct, the less need there is to show a repetitive series of incidents to prove a hostile environment, particularly if the conduct is physical.

CAMDEN COUNTY COLLEGE

PUBLIC SAFETY DEPARTMENT

Access to Campus Facilities

SEXUAL INTIMIDATION

Threatening behavior of a sexual nature directed at another person and includes threatening to sexually assault another; engaging in indecent exposure; and Stalking.

SEXUAL MISCONDUCT

Sexual Harassment, Sexual Assault, Sexual Exploitation, Sexual Intimidation, Sexual Violence, Relationship Violence, and Stalking.

SEXUAL VIOLENCE

One or more physical sexual acts perpetrated against a person's will or where a person is incapable of giving Consent.

STALKING

Engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others, or to suffer substantial emotional distress. For purposes of this definition, a "course of conduct" means two or more acts, including but not limited to, those in which the alleged perpetrator directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about the Complainant, or interferes with the Complainant's property. Stalking includes Cyberstalking.

DOMESTIC VIOLENCE

Domestic Violence includes crimes of violence committed against a victim by: (i) a current or former spouse; (ii) a person with whom the victim shares a child; (iii) a person who is or has cohabitated with the victim as a spouse; (iv) a person similarly situated to a spouse of the victim; or (v) any other person against whom the victim is protected under New Jersey domestic and family violence laws. It is important to recognize that emotional, verbal, and economic abuse are part of the web of domestic violence and can exist without the presence of physical abuse.

This disclosure is limited to the alleged victim who should be informed that the information might not be disclosed to the public generally (20 USC Section 1232g (b) (6)).

CAMDEN COUNTY COLLEGE

PUBLIC SAFETY DEPARTMENT

Safety Inspections

The College conducts regular inspections of the facilities and grounds to note and correct deficiencies which may exist. The college community is encouraged to report potential hazards to the Department of Public Safety immediately.

FIRE ALARMS

All Camden County College buildings are equipped with fire alarms. Wall mounted manual pull stations and fire extinguishers can be found throughout all campus facilities. Public Safety personnel routinely patrol all college facilities to ensure the safety of the environment, which includes checking the building alarm panels. All of our Public Safety Officers are trained in the use of fire extinguishers.

In the event of a fire or smoke, the alarm will sound. At the sound of the alarm, all students, employees and visitors are required to evacuate the building immediately. Students are encouraged to remain with their class to permit the professor to take attendance once outside the building. Evacuation routes, assembly areas and emergency information are posted inside of each classroom, office area and throughout all College facilities. If smoke or fire are discovered by a campus community member and the alarm is not sounding, they should pull the nearest wall mounted pull station to activate the alarm

and immediately leave the area, alerting all and advise persons they encounter to evacuate. Once evacuated to a safe assembly location, Public Safety and the fire department should be immediately informed of the location and nature of the hazard.

Public Safety officers will respond to investigate each alarm. Our Officers will ensure that the building is completely evacuated, will contact external agencies for assistance as needed (Fire, Police, and E.M.S.) and respond to the fire alarm panel to determine the cause of the alarm. Public Safety will ensure that no non-essential personnel re-enter an evacuated structure until it is declared safe to do so by the Fire Department. Due to fire code regulations, elevators will be automatically locked out during an active fire alarm. Persons with mobility issues are instructed to take refuge at the nearest handicap area of rescue located by each emergency call box phone. Public Safety Officers are trained to respond immediately to these areas to search for and assist persons with mobility issues. Our Department is trained to use stair chair units to help persons with mobility issues to descend staircases. If you know the location of someone with mobility issues who is inside of a structure in alarm, relay this information to Public Safety and fire dept. personnel as soon as possible.

CAMDEN COUNTY COLLEGE PUBLIC SAFETY DEPARTMENT

Fire Safety

FIRE SAFETY

When a fire alarm is received the Public Safety Communications Officer receives the building information and dispatches an officer to that location and the fire company is notified.

The Communications Officer will position the CCTV camera for that specific building and location in the building, when possible, to gain a visual of the area to assist the responding Public Safety Officer and to give additional information to the responding emergency units. The Public Safety Officer

will conduct an entry search of the building to verify that all building occupants have evacuated. The responding officers

will then read the Fire Alarm Panel Annunciator located inside the main entry of each of the buildings to determine the specific location of the fire and the device that has tripped the alarm. This could be a smoke or heat detector or a water flow valve which indicates the sprinkler system has been activated.

Each building is equipped with sprinkler systems that are classified as “wet systems.” This means that there is always water present that will be released when the specific sprinkler head is compromised by the fire. All Camden County College facilities and patrol vehicles are equipped with fire extinguishers as required by the fire code. Most of the extinguishers are classified as dry chemical and are rated to extinguish A, B, or C classified fires. A: would be wood or other combustibles. B: gasoline, or other flammable liquids. C: electrical equipment.

The fire extinguishers are inspected on a monthly basis by the Public Safety Officer and annually by a private service company along with the Public Safety Department. The College building sprinkler systems are inspected annually by a private service company and the Camden County Fire Marshal inspects all College-owned facilities on an annual basis.

All classrooms and large meeting rooms at Camden County College facilities have Emergency Exit Egress signs posted to facilitate the safe evacuation of facilities that show a primary or secondary route to follow. The information concerning how to respond to various emergencies on campus are delineated in the Emergency Information quick reference poster that is available in each classroom. We also encourage the faculty to relate this information to their students at the beginning of the semester. Camden County College also conducts building evacuation drills annually.

All fire safety issues will be handled in a timely manner. Specific fire safety procedures are put in place by the Public Safety Department when a safety problem is identified to ensure the Camden County College community’s safety is not compromised during this time. This is accomplished by:

- Increasing patrol activity at the specific location.
- Making sure the CCTV camera at that location is monitored by the dispatcher.
- Informing all college employees of the problem so they can make the appropriate notification to the Public Safety Department if they observe any safety issues.

The Public Safety Department can facilitate notification of the law enforcement agency on your behalf, if that is your wish. Filing a report will not necessarily obligate a victim of sexual assault to prosecute the crime. However, filing a report will ensure that a victim of sexual assault has access to necessary medical treatment and tests. This treatment will also provide the opportunity for collection of evidence helpful in prosecution. Time is a critical factor for evidence collection and preservation. In addition, reporting the crime will assure a victim of sexual assault has access to confidential counseling from individuals specifically

trained in the area of sexual assault crisis intervention.

A Camden County College representative from the Public Safety Department or Student Services can guide a victim of sexual assault through the reporting options available to them. The victim of a sexual assault may choose for the investigation to be pursued through the criminal justice system and the Camden County College Student Code of Conduct, or only the latter. Both the victim of a sexual assault and the accused will be informed of the outcome of the relevant Student Code of Conduct hearing. A student found to have violated the Student Code of Conduct regarding sexual assault may be expelled from the College. Camden County College disciplinary proceedings are detailed in the Student Handbook which can be found online at the college's website. **The Public Safety Department urges all students to review the Student Handbook which has a section titled Campus Sexual Assault and Victim's Bill of Rights.**

Sexual Assault Prevention & Awareness

PREVENTION AND AWARENESS: HOW TO MINIMIZE YOUR CHANCE OF BEING SEXUALLY ASSAULTED

Be assertive. No one has the right to do anything you don't want him or her to do. There is nothing "polite" about RAPE. If he/she will not respect your wishes, leave. Be clear about your sexual limits and communicate them clearly. Do not hesitate to scream, yell, kick, and run. Do whatever it takes for you to free yourself from your attacker.

Alcohol and drugs can play a part in acquaintance/date rape. It's hard to express yourself clearly when you are not thinking clearly. You may not recognize a bad situation until it's too late. If you are incapacitated due to the use of drugs or alcohol, you may not be able to protect yourself.

Trust yourself. If you feel scared or intimidated that you might be in a dangerous situation, you are probably right. Don't wait until something happens. Leave immediately! Knowledge is power.

ARE YOU LIKELY TO COMMIT A SEXUAL ASSAULT?

Never assume. Forced sex is never justifiable. "No" does not mean, "Yes." Having sex in the past does not guarantee sex now or in the future. Flirting or suggestive behavior is no guarantee that sex will occur. The person who paid for dinner only paid for food.

Start listening. Respect the person you're with. If you think you are getting a double message from the person you are with, speak up and ask for an explanation. Abide by the answer you get. Sexual excitement does not justify forced sex. Desires may be uncontrollable, but your actions are not.

Ask yourself if sex right now is worth going to jail over later?

Being drunk or high is no excuse. Intoxication is not a legal defense for sexual assault. Each and every one of us is responsible for our actions, drunk or sober. If the person you are with is passed out or not in control, it is a crime to have sex with her or him.

MEGAN'S LAW NOTIFICATION

On October 31, 1992, the State of New Jersey enacted a series of laws which provide that the community be notified of the presence of certain sex offenders. As stated in the above heading, they are commonly referred to as "Megan's Law," marking the first mandatory notification system in the country.

This law requires that the Prosecutor's Office in the county in which the offender resides, classify an offender into one of three categories.

- Low Risk – Tier One (for Recidivism)
- Moderate Risk – Tier Two (for Recidivism)
- High Risk – Tier Three (for Recidivism)

Upon review by a Superior Court Judge, the offender may be placed in one of the classifications and notification plan, at which time, notification may occur.

Additional information on sex offender community notifications and how to handle notifications within your organization can be found on the New Jersey Attorney General's website:

www.state.nj.us/lps/dcj/megan/meganguidelines1-05.pdf

The federal Campus Sex Crimes Prevention Act requires institutions of higher education to issue a statement advising the campus community where information concerning registered sex offenders may be obtained.

THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT: THE BUCKLEY AMENDMENT

Camden County College is in full compliance with the Family Educational Rights and

Privacy Act of 1974, as amended (FERPA). This act was designed to protect the privacy of student educational records, to establish the rights of students to inspect and review their educational records, to provide guidelines for the correction of inaccurate or misleading data, except grades, and to permit students to control disclosure of their educational records, with certain exceptions.

A copy of the FERPA regulations is on file in the offices of the Registrar, Public Safety Department and the Associate Dean of Student Services. Students also have the right to file complaints with FERPA, Office of the Department of Education, Washington, DC 20202, regarding alleged violations of the act.

THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT: Disclosure to Parents

When a student turns 18 years old or enters a post-secondary institution at any age, all rights afforded to parents under FERPA transfer to the student. However, FERPA also provides ways in which schools may share information with parents without the student's consent. For example:

- Schools may disclose education records to parents/ guardians if the student is a dependent for income tax purposes.
- Schools may disclose education records to parents/ guardians if a health or safety emergency involves their son or daughter.
- Schools may inform parents/guardians if the student who is under the age of 21 has violated any law or its policy concerning the use or possession of alcohol or a controlled substance.

CAMDEN COUNTY COLLEGE PUBLIC SAFETY DEPARTMENT NJ State Right-To-Know

THE RIGHT TO KNOW ACT

The New Jersey Worker and Community *Right to Know* Act requires public and private employers to provide information about hazardous substances at their workplaces. The Act:

- informs public employees about chemical hazards at their workplace so they can work safely with these hazardous substances;
- helps firefighters, police, and other emergency responders adequately plan for and respond to incidents such as fires, explosions or spills;
- provides data for monitoring and tracking hazardous substances in the workplace and the environment.

HOW THE ACT CAN PROTECT YOU AND YOUR FAMILY

Harmful substances may be present at your workplace and at other workplaces in your community, or may be released into the environment. They may also be carried home to your family on your work clothes.

Hazardous substances can cause irritation to the eyes, skin, and respiratory tract. Exposure to hazardous substances has been linked to health problems such as cancer, birth defects, and heart, lung and kidney diseases. These diseases may develop many years after exposure. *As a public employee, you can obtain information about hazardous substances that may harm you or your family from documents in your workplace's **Right to Know (RTK)** central file.*

Knowing about hazardous substances and how they harm you can help you obtain the proper diagnosis and treatment if you should become sick. More importantly, awareness about hazardous substances and your potential exposure to them can help you make important decisions about your employment.

HOW THE ACT WORKS

Employers covered by the Act must complete surveys listing the names and amounts of hazardous chemicals stored and used at their workplaces.

Right to Know Surveys are completed by public agencies and sent to the New Jersey Department of Health and Senior Services (NJDHSS).

Community Right to Know Surveys are completed by private employers and sent to the New Jersey Department of Environmental Protection (NJDEP).

*Copies of these surveys are required to be sent to local fire and police departments, designated **Right to Know** county agencies (mostly county health departments), and local emergency planning committees.*

Public employers are required to label containers according to the New Jersey *Right to Know* Act and PEOSHA, and maintain a *RTK* Central File that contains information about hazardous substances at their facilities. Private employers are required to label containers according to OSHA and the New Jersey *Right to Know* Act.

HOW PUBLIC EMPLOYERS COMPLY WITH THE RIGHT TO KNOW ACT

Public employers have the responsibility to assist workers in learning about the hazards of the products they work with. The employer must:

- ✓ Complete the *Right to Know Survey*
- ✓ Label Containers
- ✓ Create and Maintain a *Right to Know* Central File
- ✓ Post the *Right to Know* Poster.

HOW TO USE YOUR WORKPLACE RIGHTS TO PROTECT YOUR HEALTH

The *Right to Know* Act gives employees certain rights and access to information about hazardous chemicals in their workplace. This information, kept in the *RTK* central file, informs workers about the health hazards of chemicals and ways to reduce or prevent their exposure to the chemical hazards. *Learn to work safely with chemical hazards to protect your health and the health of your family members.* To do so:

1. Work only with labeled containers.
2. Check your workplace *RTK* Survey to find out which products contain hazardous chemicals.
3. Read Material Safety Data Sheets and Hazardous Substance Fact Sheets about the health hazards of the hazardous chemicals in the products. These documents are kept in the *RTK* central file.

You do not have to work with a product if your employer has not given you the ingredient information you requested in writing within five working days. **Call the NJDHSS** for more information **before** you refuse to work with a product.

You can file a complaint against your employer for not complying with the *RTK* Act. Your **name will be kept confidential**.

This brochure is being distributed to you as part of your training about hazardous chemicals in the workplace under the PEOSH Hazard Communication Standard. For more information about training, contact the Public Employees Occupational Safety and Health (PEOSH) Program, New Jersey Department of Health and Senior Services, P.O. Box 360, Trenton, NJ 08625-0360, (609) 984-1863, www.nj.gov/health/eh/peoshweb.

Should a student, staff or faculty member need to temporarily park a vehicle on campus other than the vehicle registered with the Public Safety Department, the individual must immediately report to the Public Safety Department and a temporary parking pass will be issued. Failure to comply may result in a citation. Please provide your driver's license, state vehicle registration and a copy of your current schedule when obtaining a parking decal. Students and visitors must park in the spaces designated with white lines only. Spaces with yellow lines are designated for the use by faculty and staff only.
